State Board of Elections
Michael Montney
2329 S MacArthur Blvd.
Springfield, IL 62704-4503

Dear Mr. Montney:

This letter is to serve as a reference for Mason County's voting equipment. Mason County currently has Unisyn voting machines that were purchased as of 12/2017.

The Unisyn machines have served as a beneficial purchase for Mason County. We are receiving nothing but positive remarks and feedback about the election machines from the voters and election workers. We have noticed a conclusive significance in the ease of uploading in the final stages of the night as well as making the overall election process much more time efficient. The Unisyn machines have proven to be a great investment.

Therefore, at this time, Mason County is currently not in a need for new voting equipment as our equipment is only about one year old, is in great shape, and is working well.

Sincerely,

SUMMER R. BROWN
Mason County Clerk
